React Native Engineer

React Native engineer with experience building and maintaining production mobile applications for financial services and telecommunications clients. Skilled in developing scalable cross-platform applications, optimizing performance, implementing CI/CD pipelines, and collaborating with product, UX, QA, and backend teams to deliver high-quality user experiences. Experienced with React Native, React, TypeScript, Firebase, GitHub Actions, and cloud technologies including AWS and Azure.

WORK EXPERIENCE

Tech Consulting • 01/2025 - Present

React Native Developer (Client: Toyota Financial Services)

- Maintained and enhanced a shared React Native codebase supporting multiple financial-services brands, ensuring consistent functionality while accommodating brand-specific business requirements.
- Implemented production features related to payments, collections, and loss-mitigation workflows.
- Developed a Bash-based build and deployment automation framework that automated version increments, multi-tenant APK/IPA generation, artifact management, Sauce Labs uploads, and source-control updates, reducing repetitive manual release activities and improving deployment consistency.
- Collaborated with product owners, UX designers, QA engineers, and backend teams to deliver customer-facing enhancements.
- Improved application responsiveness across multiple device types, reducing UI inconsistencies and enhancing user experience.
- Contributed analytics integrations and production-quality feature releases in an Agile development environment

React Native Team Lead (Client: Frontier Communications)

- Led a team of 5 developers delivering React Native features and UI enhancements for customer-facing mobile applications.
- Improved application performance through lazy loading, optimized rendering strategies, and enhanced fallback handling.
- Utilized Firebase, Logstash, and Quantum Metric for analytics, monitoring, troubleshooting, and production insights.
- Collaborated with stakeholders to plan, prioritize, and deliver high-impact mobile features.
- Supported release activities and quality initiatives to improve application stability and user experience.

SKILLS

Languages & Frameworks:

Django, Flask, JavaScript, Node.js, Node. js, Python, React, React Native, REST APIs, TypeScript

Mobile Development:

Android Studio, Firebase, React Navigation, Redux Saga, Redux Toolkit, Xcode

Cloud & DevOps:

AWS, Azure, CI/CD, CI/ CD, Git, GitHub, GitHub Actions

Testing:

Jest, Unit Testing

Design & Collaboration:

Agile, Canva, Figma, Illustrator, Photoshop

EDUCATION

Masters of Science: Computer Science

New Jersey Institute of Technology
New Jersey, USA
05/2024

Bachelor of Engineering: Computer Engineering

Thakur College of Engineering & Technology
Mumbai, India
06/2021

Bright Mind Enrichment (BME) • 11/2024 - 01/2025

React Developer (Volunteer)

- Collaborated within a Scrum team of 5 developers to iteratively deliver feature updates for the Bright Mind Enrichment website.
- Designed and implemented UI components for seasonal campaigns, including a 'Self-Care & Wellness' initiative, enhancing user engagement during key organizational events.
- Mentored team members on code quality and React best practices, fostering a culture of continuous improvement.

Insignia Consultancy Solutions • 08/2024 - 11/2024

Python Developer

- Developed an AI-powered chatbot supporting text generation, speech-to-text, and text-to-speech using local and cloud-based LLMs (Ollama, Groq, Hugging Face).
- Designed and implemented an NLP-based information extraction system to identify key entities and intents from user input (e.g., source, destination, travel dates), transforming free-form text into structured, high-level action items for AI workflows.
- Designed and implemented high-performance REST APIs using Flask, optimizing request handling and reducing response times by 20%.

Webtraffic Agency • 01/2022 - 06/2022

Graphic Designer

- Collaborated with cross-functional teams to create brand-consistent visual assets, strengthening overall brand identity.
- Managed multiple client projects concurrently, delivering 100% on-time completion while maintaining quality standards.
- Produced social media graphics and campaign creatives, boosting post engagement by 60%.
